Sunergy Advantages

Power attenuation rate surpass than industry standards

As the CTC randomization test, our attenuation rate is 1.81%, 0.31% and 0.34% in the 1st, 2nd and 3rd year, which is much less than the national standard value of 2% and 0.55%

Overflow tank can be waterproof

The excess silicone will flow into the overflow tank, can reduce 3% water vapor entering the panels.

Stronger frame

The C side of the frame contains curved hook reinforcement, enhanced the mechanical load strength by 10%

Current grading

Current classification effectively avoids 2% power loss caused by current mismatch during installation, achieving max output power

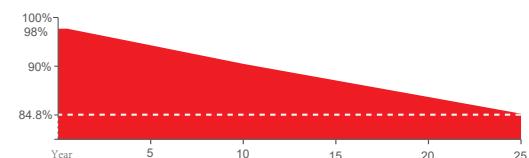

IP68 junction box

IP68 junction box offer perfect waterproof performance

LINEAR PERFORMANCE WARRANTY

- 12 Years Manufacturing Warranty
- 12 Years 92% Power Output
- 25 Years 84.8% Power Output
